## A Woman's Voice

---

A Profile of Project Activities

---

## Project Activities

**Field Survey**

**Community Activities**

**Capacity Building**

**Strengthening Governance  
of the Associations**

**Income-generating Projects**

**Networking and Information  
Exchange**

The field survey aims to study the reality of women's participation in the social, economic and political fields to identify their needs and enhance their participation.

## Community Activities

1

### Dialogue Sessions

Women's associations will hold a dialogue with community actors and civil society organizations to raise awareness of the importance of woman's role and to enhance her self-confidence.

2

### Community Representation Authority

It consists of civil society dignitaries and women activists within the civil society, to supervise project activities and to contribute positively to the activities of women's associations.

3

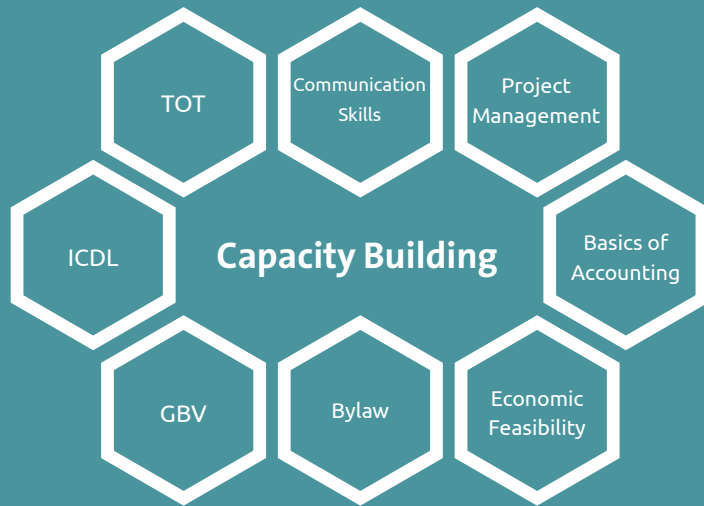

### Network of Women Associations

A network of all women's associations will be formed to be the essential core to attract all other associations in liberated areas to promote the role of women and their participation in society.

4

### Electronic Platform

It will serve as a platform for communication and exchange of experiences and information between the associations. It will include training materials in various fields and news of the associations in addition to identify the CVs of women activists in order to find jobs for them.

## Strengthening the Governance of Associations

1

### Legal and Administrative Development

The expert will qualify association's members to develop the bylaw and the financial system, the administrative structure, the administrative and financial records, policies and procedures required for the work of the association.

2

### Strategic Planning

The expert will qualify some members to be trained on strategic planning and assist them in developing the strategic plan of the associations.

3

### Project Management

The expert will qualify some members to be able to study and manage projects, analyze the economic reality and identify needs of the service projects with the aim of achieving the strategic objectives.
